Smoke and Mirrors

'A very fine and imaginative writer' THE SUNDAY TIMES

DOWNLOAD EBOOK
This definitive collection of Neil Gaiman’s short fiction will haunt your imagination and move you to the very depths of your soul. An elderly widow finds the Holy Grail beneath an old fur coat. A stray cat fights and refights a terrible nightly battle to protect his unwary adoptive family from unimaginable evil. A young couple receives a wedding gift that reveals a chilling alternative history of their marriage. These tales and much more await in this extraordinary book, revealing one of our most gifted storytellers at the height of his powers.

Customer Reviews
People tend to get snide when you mention Neil Gaiman used to write comic books. Infidels. If your friends mock you and your fascination with the worlds Gaiman creates, just give them a copy of this book and tell them to shut up. It’s the best introduction I can think of to everything Neil. Some stories are undoubtedly stronger and more inspired than others, but the collection on the whole is astoundingly good, and makes Stephen King look pathetic, though it’s hard to compare the two. Gaiman doesn’t write horror stories, he writes magical ones -- stories that wrap you up in what your parents told you for years was impossible or unreal. “Snow, Glass, Apples” -- this is not your grandmother’s Snow White, and Gaiman himself states that he hopes the reader will not read the original faery tale the same way ever again. He succeeds. This story is worth the price of the book alone. “Chivalry” -- a brilliant, extremely funny look into the mind of an elderly woman who’s found the Holy Grail in a secondhand store and think it’s just a fabulous mantel piece, never mind that
Arthurian knight who keep bothering her for it. I made my dad read this one."Nicholas Was..." -- ever wonder how Christmas in the Gaiman household is? Dark, haunting, and achingly beautiful. Possibly my favorite, despite its (sadly) short length."The Goldfish Pool and Other Stories" -- the longest, and one of the best hands down, stories in this book. Neil takes the big hypodermic needle of writing and instead of sucking the life right out of what could have been a boring story, injects it with a subtle shadow and oodles of glitter. Very touching.

Every now and then a reviewer uses the words "every now and then" to start a review. It usually is followed by a glimmering review of a very artsy, very bad book. With this book, though, it is completely appropriate. It is appropriate to say that every now and then a story collection comes along that will, in the end, change the way we read short stories. The last time this happened was, perhaps, King’s "Night Shift." Before that, pick any Ray Bradbury collection. But Gaiman’s collection is both and more put into one. "Smoke and Mirrors" is absolute masterpiece and seems like it would satisfy almost any avid reader’s tastes. There is the humor, social commentary, poetry of all kinds and even a few examples of remarkably tasteful erotica included in this timeless collection. The dark side of the reader is revealed in a reassuring and, at the same time, frightening way. Reading Gaiman is not mere recreation, it is experience. This reviewer did not take long to complete these pages, despite a relatively busy work schedule. When it was over, it leaves disappointment that stems from the fact that the book was over, finished. Yet it is a fulfilling, and wonderful experience. It is not bogged down by "trying to make a point," despite the points it does make on the reader. It is simply telling a story, and the reader takes it as he or she wishes. This, in the end, is the essence of writing, and Gaiman has mastered it perfectly. The stories are diverse; humor and dark, poetry and prose. However, no matter which story you read one thing remains constant: Gaiman’s superb ability in the art of storytelling. Writing short stories is an art of the most refined form, and Gaiman has done more than lead the art form or change the art form.
