## Customer Reviews

A great book-method for funk studies. It contains really basic funk examples and it's great for beginners to this style. The audio CD has performances of all these songs with and without the bass part. It is also an enhanced CD, so that you can adjust the tempo (the pitch remains the same), when using it on a computer.

Excellent product and excellent seller, very good!!

I like it. I use it for my bass accordion

I returned this book when I realized it did not have all of the songs listed (specifically "Flashlight" is not included.)
