My son loves Minecraft and is also an avid reader. This book is perfect for him. He sat and read (and reread) about the numerous traps for hours, relaying what he had learned back to me. He then attempted to duplicate many of the traps on his own, with some success. Of course, we only have

the PE version, so we're still awaiting for other features to be added. Once they're in the game, he'll have a blast creating the ultimate traps. Good price. Could be a little longer, but some of the traps are pretty creative.

I got this minecraft book to help my son since he is so into this game. He is about half way through it already and says he has learned how to make several traps so far. If he is happy with it so am I.

It will teach you how to make the best traps in the game minecraft, you will need lots of blocks though! Read it now. ^ super spy1008

This Book was the best one I have ever read it is really useful in many ways in Minecraft but the thing I really like about it is that I trapped and trolled my friend soooo bad

I loved this book as it inspired my students to read more and so I now am happy to say I never had to scold a student about not doing they're reading homework . Thank you for writing it.

Good luck with the flare up to get minecraft pe server and Blake lively discussion of the flare up to get minecraft pe server and Blake lively discussion of the flare

It's okay, not the best book ever but it is helpful to other people. Average is my last word. Some traps are good ones others are.... I just don't like some of them.

I liked the book, but the instructions were SO confusing. The fact that word minimum was over used, along with run on sentences, made it a tad confounding.
