## **Customer Reviews**

This book is perfect to what I want. This book will teach you how to create passive income with little or no money at all. With this book, I learned a lot of things must know by everyone of us. Interesting read about passive income. I have been researching about ways to make passive income and i find this book very helpful in explaining what are the secrets in making passive income and how each of us regardless of how much salary we earn can start today with our passive income plan. Again, I totally agree with the author about one important point about making money and create personal

wealth that is there is no quick money scheme, we must be working hard and staying consistent with the strategy of making passive income. You will learn money management, the power of arbitrage, how to get started, and a lot more. I will highly recommend this book to other readers.

Useful books for those who want to keep their finances under control. The first is invited to consider the various options of passive income as a way out of the difficult financial situation. One possibility is earnings in the Internet - from writing books on to application development and other products (such as Facebook). Second pay attention to currency wars, the fact that this is, how it can affect on your life, how you can make money on it. Books are a lot of necessary and important information, I recommend them to you.

This is such an informing and useful boo! As someone who works from home as a writer, generating an income is hugely important to me. Passive Income is a book full of tips about how to make money outside of a regular job. The book covers blogging, affiliate marketing, podcasts, ebooks, website creation, YouTube, and selling informational products. No matter what your situation, there's something in here that can apply to you and help you earn money. So much worth reading!

This is what I want. I want to earn extra cash but not just an extra cash. I want a stable online income. I am good on writing and designing. Now I don't really have to apply an office-based job. This is going to be very interesting. I can't wait to start. I have tons of options now. I have the idea of legitimate networks now.

A good book for a quick read. The Information provided in this book is great for anyone who wants to earn a few extra bucks online and to help any business no matter what the product. I highly recommend this book as a great starting point to learn the basics.

It's the kind of book beginners will benefit on. First tell us how and in what ways you can earn online. In the second book can be seen as a war of money affect the economic situation of different countries. Good books for those who do not want to sit back, for those who are willing to work hard for their own financial freedom. Recommend!
