Have you ever experienced a masterful presentation, or admired how someone effectively managed a potentially hostile or disinterested audience... then wondered how they did it? Zoller & Landry give their readers insightful and practical information to give you that same edge when presenting. Subtle awareness that gives you that extra intangible to make your audience sit up and take notice of what you present. From pure presentation to facilitation and moderation, Zoller & Landry peel back the curtain to provide information that will transform your experience...and theirs. A must read for anyone who wants to present with intention, and be more effective in the delivery.

The Choreography of Presenting: The 7 Essential Abilities of Effective Presenters provides educators with a fine survey of body language and physical behavior that lends credibility to audience presentations and learning. From common presentation challenges and conflicts to practical exercises, this is a fine guide that will easily cross over to business and general libraries, too!

This book gives a series of simple yet highly effective aspects required for leading a successful meeting or presentation. The concepts when practiced and put together create a much more productive and receptive environment for meetings and presentations. Some of the ideas may seem difficult to practice, like controlled breathing, but if one focuses on each element and practices it, they will become much more credible presenters.
