Customer Reviews

Clear concise and easily understood by those who have studied Horton Technique. It is important to have studied the technique to really benefit from this book. It is a wonderful documentation of Horton’s work.

This book is extremely valuable to dancers everywhere and should be used as a textbook. My only wish is that it came with a dvd or more pictures to fully outline the lessons and positions a little better for those who are visual learners. Otherwise, an essential work on such a magnificent technique.

I never received the item from the source I ordered so I ordered from another place...I will review it when I get it. I did get a full refund the very next day. Thank you.
