## Customer Reviews

While the Star Force series is not exactly the most popular series of the Mega Man franchise, this art book collects the amazing artworks of the Mega Man Star Force series, combined with concept arts, developer commentary, amazing promotional art, and well edited for a great feel, Mega Man Star Force: Official Complete Works is a must-have for the fans of the Blue Bomber. There are 2 Chapters in the book, the first is Star Force 3's grand artwork, containing Bosses designs, as well as Viruses design, and in-game designs of the game. The second chapter is about the first and second Star Force games, containing a stunning amount of artwork, character design, bosses design, and many, many more!

Some people collect stamps, coins, baseball cards or comic books. I don't do that. Instead, I collect all the best art books. If you collect art books like I do I would say definitely buy this one. The artwork is just amazing!!! If I could give this more than 5 stars, I definitely would. This really is a "must have book" I would recommend this to anyone reading this review. I also own almost all the

other Udon Entertainment art books and I would like to take the time to recommend them all. In my opinion Udon is just the best of the best. I don't work for them. I don't get paid by them. I'm just a fan of their art books.

If you are a fan of Battle Network, Star Force, or Mega Man in general then you need this book. So much information in this book from the concept art right down to all the juicy notes the creators put in. A great source for inspiration as well.

I am a huge Megaman fan, and this artbook is something every fan should get. It shows the making of details, artwork images and possible covers, everything a fan would enjoy to see. It also gives hints to those who haven't played all the way through the games (like me!) what we could expect. Megaman Star Force, the last of the Nintendo DS games released in the US, are the games to play. This Works Book is definately worth the money!

really wonderful book, arrived on time in perfect condition. most of the content is focused on the third game. the beta designs are really great to look at; there's a lot of previously unreleased information about the characters too. definitely a good investment if you're into the series.

The package came in on time, and the book actually is pretty thick. I really love SS Mega Man. If you like it too, you need to have one too. There is so many interesting setting about the games in the book, I'm sure you will like it.

So. Beautiful. Arrived on time in perfect condition! The book itself was so gorgeous, I had reservations about opening it haha The pages inside were full of concept pictures and other good things (my favorites were the different Noise Changes!) So glad I bought this!

This is one of the best art book I have ever got, very nice foil book cover and all the designs of the game included. I was a huge Megaman fan since I was little and this book is very worthy to get.
