## Customer Reviews

I just received this book and was looking through it when I noticed that while the heading says "Piano, Guitar, Vocal" it really is for piano and vocal only. There is no tab present (which is fine) and while there are chord symbols for each of the songs above the piano music, there is no explanation of the fingerings for any of these chords. I mean, am I really supposed to know what a B over D# chord fingering is, or A9 over G, or E flat minor 6 over C??? I thought this was supposed to be "EZ"! I s'pose I can look up the chords I don't know online, but it's just very frustrating that they advertise this book as being for guitar and yet they don't offer anything that is conducive to playing. Other than that, there appears to be a wide selection of music to choose from, which is nice I guess.

I always appreciate having the right tool for the right task . . . this wedding book is REALLY the right tool. The songs are the ones people want, the arrangements are strong and singable. A necessity

for your wedding planning!
