Blue On Blue: An Insider's Story Of Good Cops Catching Bad Cops

Synopsis

This eye-opening, richly authentic memoir by the longest serving chief of NYPD's Internal Affairs Bureau reveals what it's like to expose and put away the bad cops "so that they won't tarnish the majority who wear the uniform. Charles Campisi headed the NYPD's Internal Affairs Bureau from 1996 through 2014, gaining a reputation as hard-nosed and incorruptible. During Campisi's years at IAB, the number of New Yorkers shot by cops every year and the number of cops failing integrity tests plummeted. But to achieve those exemplary results, Campisi had to triple IAB's staff, hire the very best detectives, and put the word out that corrupt cops wouldn't be tolerated. In *Blue on Blue*, Campisi brings us into the real world of cops: We listen in on wiretaps. We experience the rush of exposing those who've betrayed their oath. We learn of new threats to the force. We also see the investigations that stretched IAB's capacities in the 1990s: from the choking death of Anthony Baez to the killing of Amadou Diallo, who was shot nineteen times by police. Along the way, we obtain fascinating glimpses of the mayors and police officials Campisi served under, from Rudy Giuliani, Mike Bloomberg, and Bill de Blasio to Howard Safir, Bernard Kerik, Ray Kelly, and Bill Bratton. The most authentic, deep-textured portrait of life inside the NYPD since Ed Conlon's *Blue Blood*, Campisi's story describes what it's like to fulfill a childhood dream of joining the world's largest police force, only to spend almost half of his career putting bad cops behind bars. A compelling, fascinating, and often harrowing read. A riveting history, wonderful for general readers and essential for all modern police forces to study and absorb.
