Islam And The History Of Islamic Terror: Understanding The Role God Plays In A Muslim World

Synopsis

Islam. Muslim. Muhammad. Allah. Terror. Ever Wonder How it All Began? Islamic faith is becoming increasingly topical as time goes by. It's in the news constantly, yet many people are clueless as to the circumstances under which the religion began. This audiobook is designed to offer the context of the history of Islam from its inception, keeping the main focus on its more focalized radical forms. Do you find it suspicious that the three modern religions all have covert spirits initiating their founders? Can the history and foundation of Islam shed light on the role the religion plays in a modern world? Inside you'll learn: The origin of Islamic hatred The role of the Muslim God or Allah The one key to undoing the madness And much more!

Customer Reviews

This is an amazing and interesting reading due to all the terrorist attacks in the last few weeks and the sensationalism in the news. This well-written book will teach you the ancient history of Islam, where the ignorance of many people and the lack of education create a denomination that serve personal and political interests. Also, this publication studies the legacy of Muhammad and the ideology that has been used in order to serve private interests. I strongly recommend this reading to all the people that wants to understand a little more about the Islam.

For me one of the tabooed topics when you will have a conversation is religion. Because people has different beliefs and stands on this topic. But it is not bad to know one religion not to criticize but to understand more, their culture, their beliefs and the things they differ from other religion. Because

when you start to understand, you start to respect, and peace starts there. This book is indeed a well written book, topics are very well discussed and I have learned a lot about Islam.

Since I've heard about Isis I wanted to understand what this religion is all about. When people whose not Islam hears about this religion, some are horrified, some are disgusted, some looks up to it. But anyway what I got from this book is about the life of Muhammad and how the religion started. I just don't think that killing other human being is justifiable because of Allah.

This book presents a profound overview on Islam, its history and its practices. It also touches on the rise of Islamic terror and how it all started. A very interesting life of Muhammad, which I admit I'd never known before, although this book has some contradictory accounts in the Islamic society I still considered this as an excellent resource.

Nowadays many things are happening in the name of Islam. Some are busy to promote the religion among others while some are ready to kill. This book will give you many information about Islam, it's relation with terror and extremism. Politicians how use religion for their purpose and many things.

This book is excellent in formulating a relatively complete picture of Islamic history. It gives the uninformed reader of Islam a great read from a nice objective perspective. Your mind will open into an in depth understanding about the Islamic hatred and the role of their God which is Allah. Great thing that it includes bonus tips - steps for you to think for yourself and enjoy your true religious freedom. I'm glad that I came across with this book, it shed me some light in my comprehension, and everything in this book is profound

The book was quite informative and very well written. The author did a good job in writing book like this. It is indeed a good read. I highly recommend this book to everyone who wants to know more about the History of Islam. Spending my time and money reading this book is really worth it.

This is an informative guide to Islam and the history of it, and give a good overview of the religious beliefs of the people there. It gives you a good understanding of Muslims and their culture and what is different to other religions. It's a well written book that gives a good overview of different areas of Islam and one I would recommend reading if you are interested in this subject.
