The World Atlas Of Tattoo

Synopsis

A lavishly illustrated global exploration of the vast array of styles and most significant practitioners of tattoo from ancient times to today. Tattoo art and practice has seen radical changes in the 21st century, as its popularity has exploded. An expanding number of tattoo artists have been mining the past for lost traditions and innovating with new technology. An enormous diversity of styles, genres, and techniques has emerged, ranging from geometric blackwork to vibrant, painterly styles, and from hand-tattooed works to machine-produced designs. With over 700 stunning color illustrations, this volume considers historical and contemporary tattoo practices in Europe, the Americas, the Middle East, North and Sub-Saharan Africa, Asia, Australia, and the Pacific Islands. Each section, dedicated to a specific geographic region, features fascinating text by tattoo experts that explores the history and traditions native to that area as well as current styles and trends. The World Atlas of Tattoo also tracks the movement of styles from their indigenous settings to diasporic communities, where they have often been transformed into creative, multicultural, hybrid designs. The work of 100 notable artists from around the globe is showcased in this definitive reference on a widespread and intriguing art practice.

Customer Reviews

The greatest tattoo scholar of all time has finally put out the book tattoo enthusiasts have been begging for. This is the first and last word, the book that carefully explores the world of tattoo and provides hundreds of gorgeous color photographs of tattoos from all over the world. The articles are from the top experts, put together by the only person who could have done a work of this magnitude. If you have interest in tattoo art and history, you need this book now.

I bought this as a gift for my brother who is very into tattoos. In all honesty I wasn't expecting this book to be as formidable or sizeable as it actually ended up being. I actually flicked through almost the whole book before I gave it to him because it was THAT good. Beautifully illustrated. In depth analysis of tattooing and just an overall beautiful work of art. Highly recommended to anyone looking for that nice center table tattoo book

I've followed her history posts on social media for some time. Great researcher and I pre-ordered this as soon as I saw it was coming out.

Great worldwide tattoo overview. With primarily modern, but also some historical examples

My sister's fiancé is a tattoo fanatic, so I had hoped that this book would suit his fancy. He was blown away by the photos and descriptions. I am tempted to buy it myself.

Absolutely beautiful! I purchased it for my son-in-law (a tattoo artist) for Christmas and he loved it!

It's a really good book. It's exactly what I was looking for!!
